

ROBSON ADVINCULA

AI & Automation Consultant | Integrations Engineer

Bragança, Portugal | robson@advx.us | +351 967 773 531 | advx.us | linkedin.com/in/robsonadvincula

Summary

AI & Automation consultant focused on intelligent WhatsApp agents (Evolution API), n8n orchestration and Supabase/Postgres data. I deliver MVPs in weeks with RBAC, logs and audit trails, pragmatic React/Next.js front-ends and stable Docker/Linux operations. Postgraduate in Ethical Hacking & CyberSecurity. Impact-oriented, fast and security-by-design.

Key Skills

- Automation & Integrations: n8n, webhooks, REST/JSON, Evolution API (WhatsApp), OAuth.
- Data & Backend: Supabase (Postgres/Auth/Policies/Storage), SQL, data modeling, auditing.
- Frontend & Product: React/Next.js (App Router), TypeScript, pragmatic UI.
- DevOps & Infra: Docker, Linux/SSH, Cloudflare (DNS/SSL), basic observability.
- Applied AI: OCR (OCR.Space), LLMs (classification/extraction), automation memory.
- Process & Compliance: BPMN, AS-IS/TO-BE documentation, GDPR/LGPD (foundations).

Experience

AdvXAutomate — Founder & Principal Consultant | 2024–Present (Portugal/EU)

- Designed and shipped WhatsApp service agents (onboarding, triage, reminders).
- n8n pipelines with validations and integrations (Supabase, Evolution API); RBAC and audit logs.
- MVPs in 1–3 weeks with concise docs and operational metrics.

Toni Project (HealthTech Social) — Product Owner & Solutions Engineer | 2024–Present

- Empathetic agent for seniors/families (reminders, proactive messaging, reports).
- Stack: n8n + Evolution API + Supabase + React/Next.js (site/admin panel with RBAC).
- Standard funnel: lead → qualification → plan → onboarding → activation.

HumanAuth.life — Founder & Product Engineer | 2025–Present

- Verifiable human-content seal with public verification page (web/PWA MVP).

Black Point Guide — Founder & Head of Product | 2025–Present

- Excellence guide for customer service to the Black community; voting and geolocation.

Selected Projects (impact)

- Toni Agent (WhatsApp): onboarding, medication/task reminders, proactive messaging.
- OCR Pipeline (n8n): media → OCR.Space → extraction → WhatsApp reply.
- Toni Admin: RBAC (client/institution/admin), metrics and contract management.
- HumanAuth.life (MVP): verification with public seal and /verify/<code>.

Education

- Postgraduate Diploma in Ethical Hacking & CyberSecurity — Faculdade Vinct, 2024.
- B.Sc. in Software Engineering — Universidade Cruzeiro do Sul, 2022.

Certifications (selected)

n8n (advanced workflows) • Supabase (Auth/Policies) • React/Next.js • Docker • Postgres • Information Security/DevSecOps (courses).

Tools

n8n, Supabase, Evolution API, REST/JSON, Node/TS, React/Next.js, SQL, Docker, Linux, Cloudflare, Git, OCR.Space, Notion/Trello, BPMN.

Target Roles (Portugal)

AI & Automation Consultant • Integrations Engineer • Software Engineer (Full-stack/Automation) • RPA/Hyperautomation (open stack) • Solutions Engineer. Availability: immediate (On-site North/Centre, hybrid or remote).
